

Winnepesaukee Radio Controllers

By - Laws

A. Administrative

1. Club officers are authorized to purchase any necessary items for club activities below \$50.00 in value, without membership vote of approval.

B. Flying

1. **Always** check your equipment, batteries, wind direction and perform a pre-flight check.
2. **Always** announce your **take-off** and **landing** direction.
Example: Taking off, left to right, or landing right to left, depending on wind direction.
3. Do not take off until plane is a safe distance from all pilots and spectators.
4. No flying will be allowed before 7:00 AM
5. Flying will be done over and north, south and west side of the runway only and never over or behind the spectators and the flight line.
6. Observe the 400-foot altitude limit. Bring model down to tree level when full size aircraft or helicopters fly in our vicinity.
7. No Turbine Jets are allowed.
8. Do not taxi your plane back to the flight station (table). Stop at the end of the taxiway strip.

C. Miscellaneous

1. Pets must always be leashed and kept under control while at the flying field.
